When requesting such leaves, it is incumbent on faculty members to consider their academic responsibilities and to ensure that they continue to be met. Before authorizing the absence, the supervisor should be satisfied that the reason for absence, whether personal or professional, is sufficiently compelling and that all teaching and other departmental responsibilities are appropriately covered. If the absence is for one week or less, no further approval is required. If a period longer than one week is necessary, the faculty member submits requests to the associate dean for their division or School. Short-term absences shall not be denied arbitrarily.
